

Company Fact Sheet

Southern Star is a leading transporter of natural gas across America's heartland, with approximately 5,800 miles of natural gas transmission pipeline in the Midwest and Mid-Continent regions of the United States. Our reputation for clean, safe, and reliable service has remained constant for more than 120 years since our formation in 1904.

Vision statement:

One community working safely together to provide clean and reliable energy for tomorrow.

Mission statement:

One team delivering innovative energy solutions through inclusive, sustainable and growth-oriented strategies.

About Southern Star

Corporate Headquarters located in Owensboro, Kentucky.

Our pipeline operates and serves customers in Kansas, Oklahoma, Missouri, Wyoming, Colorado, Texas, and Nebraska.

We live and work in our pipeline's path and dedicate ourselves to safety and service in our communities.

We remain committed to working towards our goal of net zero emissions by 2050 through innovative projects and initiatives.

Southern Star is devoted to fostering a diverse and inclusive culture where everyone's voice is heard.
